

Hibiscus Trust Fiji

Sadhana Smiles

Sadhana Smiles is the founder of Hibiscus Trust Fiji; her vision is to improve health through education. A key focus of our Trust is women's health in particular the prevention and early detection of cervical and breast cancer.

Sadhana's work has been inspired by the story of Leba, a mother of 7 who died of cervical cancer simply because she could not afford a \$2 bus fare to town to follow up on the results of her pap smear.

***"You must be the change you want to see in this world..." Mahatma Gandhi
It takes only love and \$2 to save a life.***

Applying the philosophy of "There for the grace of God go I" Sadhana has channelled her commercial skill, passion and the power of her extensive business network into building a clinic, delivering outreach education programs and a "make a wish" initiative in Fiji hospitals. Over 9 years many lives have been improved or saved.

Sadhana is a successful business woman, coach and well known public speaker in the Real Estate Industry.
